1. Write a HTML program to produce the following output:

2. Write a HTML program to design the class timetable for IV CSE A/B as given in the PDF file
3. Write a HTML program to use the concept of image maps. Description is given below:

Printer — Monitor — C.P.U — Speakers — Keyboard — Mouse

Printer	A printer is an external hardware output device that takes the electronic data stored on a computer or other device and generates a hard copy of it.
Speakers	Computer speakers, or multimedia speakers, are speakers sold for use with computers, although usually capable of other audio uses
Monitor	A computer monitor is an output device that displays information in pictorial form. A monitor usually comprises the display device, circuitry, casing, and power supply.
CPU	Central processing unit (CPU) is the central component of the Computer System. Sometimes it is called as microprocessor or processor. It is the brain that runs the show inside the Computer.
Keyboard	A computer keyboard is one of the primary input devices used with a computer. Similar to an electric typewriter, a keyboard is composed of buttons that create letters, numbers, and symbols, as well as perform other functions.
Mouse	A computer mouse is a hand-held pointing device that detects two-dimensional motion relative to a surface. This motion is typically translated into the motion of a pointer on a display, which allows a smooth control of the graphical user interface.
